Commenting on third quarter performance, Dr. Patrizio Vinciarelli, Chief Executive Officer, stated, "Semiconductor component shortages and capacity constraints caused Q3 revenues to fall short of expectations with a negative impact on margins. Improved semiconductor component availability and increased capacity should support a significant step up in Q4 revenues."

The Q3 book-to-bill ratio came in at 2.0 and Q3 ending backlog stood at \$296 million, as compared with \$140 million at the end of Q3, 2020. Advanced Products shipments in Q4 are expected to significantly exceed legacy bricks. Our factory expansion is on track to be completed in Q4 with production equipment coming on line starting in Q1 '22."

Dr. Vinciarelli concluded, "In Q3, we executed our first OEM License Agreement and received initial license purchase orders from a major OEM wishing to secure access to systems utilizing power modules covered by Vicor IP."
