VICOR CORPORATION

Notes to Condensed Consolidated Financial Statements March 31, 2006 (Unaudited)

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2006 are not necessarily indicative of the results that may be expected for any other interim period or the year ending December 31, 2006. The balance sheet at December 31, 2005 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. For further information, refer to the consolidated financial statements and notes thereto contained in the Company's annual report on Form 10-K for the year ended December 31, 2005 (File No. 0-18277) filed by Vicor Corporation (the "Company" or "Vicor") with the Securities and Exchange Commission.

2. Stock-Based Compensation

On January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123 (revised 2004), "Share-Based Payment" (FAS 123R), which is a revision of FAS No. 123, "Accounting for Stock-Based Compensation". FAS 123(R) supersedes APB Opinion No. 25, "Accounting for Stock Issued to Employees", and amends SFAS No. 95, "Statement of Cash Flows". Generally, the approach in FAS 123(R) is similar to the approach described in FAS 123. However, FAS 123(R) requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values at the date of grant. Pro forma disclosure is no longer an alternative.

The Company is using the modified prospective method as permitted under FAS 123(R). Under this transition method, compensation cost recognized in the first quarter of fiscal 2006 includes: (a) compensation cost for all share-based payments granted prior to but not yet vested as of December 31, 2005, based on the grant-date fair value estimated in accordance with the provisions of FAS 123, and (b) compensation cost for all share-based payments granted subsequent to December 31, 2005, based on the grant-date fair value estimated in accordance with the provisions of FAS 123(R). In accordance with the modified prospective method of adoption, Vicor's results of operations and financial position for prior periods have not been restated.

VICOR CORPORATION

Notes to Condensed Consolidated Financial Statements (Continued) March 31, 2006 (Unaudited)

Stock-Based Compensation (Continued)

Vicor currently grants stock options under the following equity compensation plans that are shareholder-approved:

Amended and Restated 2000 Stock Option and Incentive Plan (the "2000 Plan") – The 2000 Plan as amended, permits the grant of share options to its employees and other key persons, including non-employee directors, for up to 4 million shares of common stock.

1998 Stock Option and Incentive Plan (the "1998 Plan") – The 1998 Plan permits the grant of share options to its employees and other key persons, including non-employee directors for up to 2 million shares of common stock.

1993 Stock Option Plan (the "1993 Plan") - The 1993 Plan permits the grant of share options to its employees and non-employee directors for up to 4 million shares of common stock.

Picor Corporation ("Picor"), a privately held wholly owned subsidiary of Vicor, currently grants stock options under the following equity compensation plan that has been approved by its Board of Directors:

2001 Stock Option and Incentive Plan (the "2001 Picor Plan") – The 2001 Picor Plan as amended, permits the grant of share options to its employees and other key persons, including non-employee directors and full or part-time officers, for up to 10 million shares of common stock.

All option awards are granted at an exercise price equal to or greater than the market price for Vicor and the fair market value for Picor of the respective company's stock at the date of grant. Options vest at various periods of up to five years and may be exercised for up to ten years from the date of grant, which is the maximum contractual term.

As a result of adopting the new standard, the Company recorded \$178,000 of non-cash stock-based compensation expense for the three months ended March 31, 2006. The stock-based compensation included \$30,000 in cost of revenues, \$86,000 in selling, general and administrative expense and \$62,000 in research and development expense for the three months ended March 31, 2006. The compensation expense did not have a material impact on basic or diluted net income per share.

VICOR CORPORATION

Notes to Condensed Consolidated Financial Statements (Continued) March 31, 2006 (Unaudited)

2. Stock-Based Compensation (Continued)

Had expense been recognized using the fair value method described in FAS 123, using the Black-Scholes option pricing model, the following proforma results of operations would have been reported (in thousands except for per share information):

	E	ee Months Ended h 31, 2005
Net income as reported	\$	39
Stock-based employee compensation cost, net of related tax effects		(258)
Pro forma net loss	\$	(219)
Net income per share, as reported:		
Basic	\$	0.00
Diluted	\$	0.00
Pro forma net loss per share:		
Basic	\$	(0.01)
Diluted	\$	(0.01)

The above table includes compensation expense for Picor options of \$26,000. The three months ended March 31, 2005 expense has been revised to include this Picor amount. The fair value of Picor common stock was estimated by obtaining an independent valuation of Picor.

The fair value for these options was estimated at the date of grant using a Black-Scholes option pricing model with the following weighted-average assumptions:

		Three Months E	Ended March 31,	
	Vic	Vicor		cor
	2006	2005	2006	2005
Risk-free interest rate	4.5%	4.0%	4.4%	4.4%
Expected dividend yield	1.4%	_	_	_
Expected volatility	.55	.66	.43	.43
Expected term	4.1 years	4.5 years	6.5 years	6.5 years

Risk-free interest rate:

Vicor — The Company uses the yield on zero-coupon U.S. Treasury Strip securities for a period that is commensurate with the expected term assumption for each vesting period.

VICOR CORPORATION

Notes to Condensed Consolidated Financial Statements (Continued) March 31, 2006 (Unaudited)

2. Stock-Based Compensation (Continued)

Picor — The Company uses the yield to maturity of a ten-year treasury bond, given the fact that all of Picor's options expire ten years after they are granted.

Expected dividend yield:

Vicor — The Company determines the expected dividend yield by annualizing the most recent prior cash dividend declared by the Company's Board of Directors and dividing that result by the closing stock price on the date of that dividend declaration. Because the Company historically has not paid regular periodic dividends and has not committed to do so in the future, the Company annualizes the most recent prior cash dividend based on its expectations at the time regarding the frequency of dividends to be declared over the next twelve months. Dividends are not paid on options.

Picor — Picor has not and does not expect to declare and pay dividends in the foreseeable future. Therefore, the expected dividend yield is not applicable.

Expected volatility:

Vicor — Under FAS 123, Vicor used historical volatility to estimate the grant-date fair value of the options. Under FAS 123(R), Vicor has elected to continue to use historical volatility, using the expected term for the period over which to calculate the volatility (see below). The Company does not expect its future volatility to differ from its historical volatility. The computation of the Company's volatility is based on a simple average calculation of monthly volatilities over the expected term.

Picor – As Picor is a nonpublic entity, historical volatility information is not available. As permitted under FAS 123(R), an industry sector index of approximately 40 publicly traded fabless semiconductor firms was developed for calculating historical volatility for Picor. Historical prices for each of the companies in the index based on the market price of the shares on each day of trading over a period of approximately ten years were used to determine the historical volatility.

Expected term:

Vicor — The Company uses historical employee exercise and option expiration data to estimate the expected term assumption for the Black-Scholes grant-date valuation. The Company believes that this historical data is currently the best estimate of the expected term of options, and that generally all groups of our employees exhibit similar exercise behavior.

Picor – Due to the lack of historical information, the "simplified" method prescribed by the Securities and Exchange Commission's Staff Accounting Bulletin No. 107 was used to determine the expected term.

Maightad

VICOR CORPORATION

Notes to Condensed Consolidated Financial Statements (Continued)

March 31, 2006

(Unaudited)

2. Stock-Based Compensation (Continued)

Forfeiture rate

Vicor — The amount of stock-based compensation recognized during a period is based on the value of the portion of the awards that are ultimately expected to vest. FAS 123(R) requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The term "forfeitures" is distinct from "cancellations" or "expirations" and represents only the unvested portion of the surrendered option. The Company currently expects, based on an analysis of its historical forfeitures, that approximately 84% of its options will actually vest, and therefore has applied an annual forfeiture rate of 9.4% to all unvested options as of March 31, 2006. This analysis will be re-evaluated quarterly and the forfeiture rate will be adjusted as necessary. Ultimately, the actual expense recognized over the vesting period will only be for those shares that vest.

Picor – Given the fact that the compensation expense for the three months ended March 31, 2006 was immaterial, the Company did not apply an estimated forfeiture rate to the compensation expense. Picor will identify and apply a forfeiture rate beginning April 1, 2006.

A summary of the activity under Vicor's stock option plans as of March 31, 2006 and changes during the three-month period then ended, is presented below (in thousands except for share and weighted-average data):

	Options Outstanding	Weighted- Average Exercise Price	Average Remaining Contractual Life in Years	Aggregate Intrinsic Value
Outstanding at December 31, 2005	2,260,248	\$ 18.14		
Granted	55,350	\$ 19.74		
Forfeited and expired	(64,675)	\$ 27.34		
Exercised	(193,967)	\$ 12.76		
Outstanding at March 31, 2006	2,056,956	\$ 18.39	3.13	\$ 8,729
Exercisable at March 31, 2006	1,775,888	\$ 19.07	2.67	\$ 7,136
Vested or expected to vest at March 31, 2006 (1)	2,021,124	\$ 18.45	.16	\$ 8,566

⁽¹⁾ In addition to the vested options, the Company expects a portion of the unvested options to vest at some point in the future. Options expected to vest is calculated by applying an estimated forfeiture rate to the unvested options.

VICOR CORPORATION

Notes to Condensed Consolidated Financial Statements (Continued)

March 31, 2006

(Unaudited)

2. Stock-Based Compensation (Continued)

A summary of the activity under Picor's stock option plan as of March 31, 2006 and changes during the three-month period then ended, is presented below (in thousands except for share and weighted-average data):

	Options Outstanding	F	eighted- Average Exercise Price	Weighted- Average Remaining Contractual Life in Years	I	ggregate ntrinsic Value
Outstanding at December 31, 2005	3,442,000	\$.45			
Granted	<u>—</u>	\$	_			
Forfeited and expired	(109,360)	\$	_			
Exercised	_	\$	_			
Outstanding at March 31, 2006	3,332,640	\$.46	6.90	\$	977
Exercisable at March 31, 2006	1,835,024	\$.37	6.46	\$	694
Vested or expected to vest at March 31, 2006	3,332,640	\$.46	0.67	\$	977

During the three months ended March 31, 2006, under all plans, the total intrinsic value of options exercised (i.e. the difference between the market price at exercise and the price paid by the employee to exercise the options) was \$1,246,000 and the total amount of cash received from exercise of these options was \$2,474,000. The total grant-date fair value of stock options that vested during the three months ended March 31, 2006 was approximately \$582,000.

As of March 31, 2006, there was \$915,000 and \$277,000 of total unrecognized compensation cost related to unvested share-based awards for Vicor and Picor, respectively. That cost is expected to be recognized over a weighted-average period of 1.5 years for all Vicor and Picor awards.

VICOR CORPORATION

Notes to Condensed Consolidated Financial Statements (Continued)

March 31, 2006

(Unaudited)

3. Net Income per Share

The following table sets forth the computation of basic and diluted income per share for the three months ended March 31 (in thousands, except per share amounts):

	Marc	nths Ended ch 31,
Numerator:	2006	2005
Net income	\$ 3,076	\$ 39
Denominator:		
Denominator for basic income per share-weighted average shares	41,948	41,980
Effect of dilutive securities:		
Employee stock options	436	135
Denominator for diluted income per share — adjusted weighted-average shares and assumed conversions	42,384	42,115
Basic income per share	\$ 0.07	\$ 0.00
Diluted income per share	\$ 0.07	\$ 0.00

Options to purchase 719,066 and 2,389,889 shares of Common Stock were outstanding for the three months ended March 31, 2006 and March 31, 2005, respectively, but were not included in the computation of diluted income per share because the options' exercise prices were greater than the average market price of the Common Stock and, therefore, the effect would have been antidilutive.

4. Inventories

Inventories are valued at the lower of cost (determined using the first-in, first-out method) or market. The Company provides reserves for inventories estimated to be excess, obsolete or unmarketable. The Company's estimation process for such reserves is based upon its known backlog, projected future demand and expected market conditions. If the Company's estimated demand and or market expectation were to change or if product sales were to decline, the Company's estimation process may cause larger

VICOR CORPORATION

Notes to Condensed Consolidated Financial Statements (Continued) March 31, 2006 (Unaudited)

4. Inventories (Continued)

inventory reserves to be recorded, resulting in larger charges to cost of revenues. Inventories were as follows as of March 31, 2006 and December 31, 2005 (in thousands):

	March 31, 2006	December 31, 2005
Raw materials	\$ 23,271	\$ 21,519
Work-in-process	2,690	2,502
Finished goods	3,493	3,838
	29,454	27,859
Inventory reserves	(10,797)	(10,691)
Net balance	\$ 18,657	\$ 17,168

5. Product Warranties

The Company generally offers a two-year warranty for all of its products. The Company provides for the estimated cost of product warranties at the time product revenue is recognized. Factors that affect the Company's warranty reserves include the number of units sold, historical and anticipated rates of warranty returns and the cost per return. The Company periodically assesses the adequacy of the warranty reserves and adjusts the amounts as necessary. Warranty obligations are included in accrued expenses in the accompanying condensed consolidated balance sheets.

Product warranty activity for the three months ended March 31, 2006 and 2005 were as follows (in thousands):

	2006	2005
Balance at the beginning of the period	\$ 755	\$ 1,042
Accruals for warranties for products sold in the period	50	39
Fulfillment of warranty obligations	(16)	(66)
Revisions of estimated obligations	(70)	
Balance at the end of the period	\$ 719	\$ 1,015

6. Income Taxes

In the first quarter of 2006, the tax provision is based on an estimated effective tax rate for 2006, which includes federal, state and foreign income taxes on the Company's projected annual pretax income, estimated federal and state income taxes for certain minority-owned subsidiaries that are not part of the Company's consolidated income tax returns, offset by the expected utilization of remaining net operating loss carryforwards and certain tax credit carryforwards. In 2005, the tax provision included estimated income taxes for federal and state taxes for certain minority-owned subsidiaries that are not part of the Company's consolidated income tax returns, for the Federal alternative minimum tax and for estimated income taxes due in various state and international taxing jurisdictions.

VICOR CORPORATION

Notes to Condensed Consolidated Financial Statements (Continued)

March 31, 2006

(Unaudited)

6. Income Taxes (Continued)

The Company operates in numerous taxing jurisdictions and is, therefore, subject to a variety of income and related taxes. The Company has provided for potential tax liabilities due in various jurisdictions which it judges to be probable and reasonably estimable in accordance with Statement of Financial Accounting Standards No. 5 "Accounting for Contingencies". Judgment is required in determining the income tax expense and related tax liabilities. In the ordinary course of business, there are transactions and calculations where the ultimate tax outcome is uncertain. The Company believes it has reasonably estimated its accrued taxes for all jurisdictions for all open tax periods. The Company periodically assesses the adequacy of its tax and related accruals on a quarterly basis and adjusts appropriately as events warrant and open tax periods close. It is possible that the final tax outcome of these matters will be different from management's estimate reflected in the income tax provisions and accrued taxes. Such differences could have a material impact on the Company's income tax provision and operating results in the period in which such determination is made.

The Company recently underwent an audit of its federal tax returns for tax periods 1994 through 2002 by the Internal Revenue Service ("IRS"). The conclusions reached by the IRS based on their audit have been agreed to by the Joint Committee on Taxation of the U.S. Department of the Treasury. While the Company is awaiting the final audit assessment from the IRS, it believes that its tax accruals are adequate to cover the ultimate assessment.

7. Comprehensive Income (Loss)

The following table sets forth the computation of comprehensive income (loss) for the three months ended March 31 (in thousands):

		Three Months Ended		
	March	March 31,		
	2006		2005	
Net income	\$ 3,076	\$	39	
Foreign currency translation loss	(8)		(41)	
Unrealized gains (losses) on available for sale securities	47		(92)	
				
Comprehensive income (loss)	\$ 3,115	\$	(94)	

8. Legal Proceedings

Vicor and VLT, Inc. ("VLT"), a wholly owned subsidiary of the Company, are pursuing Reset Patent infringement claims directly against Artesyn Technologies, Lucent Technologies and Tyco Electronics Power Systems, Inc. in the United States District Court in Boston, Massachusetts. The lawsuit against Lucent was filed in May 2000 and in April 2001, the Company added Tyco Electronics as a defendant in

VICOR CORPORATION

Notes to Condensed Consolidated Financial Statements (Continued)

March 31, 2006

(Unaudited)

8. Legal Proceedings (Continued)

that lawsuit. The lawsuit against Artesyn was filed in February 2001. In January 2003, the District Court issued a pre-trial decision in each of these patent infringement lawsuits relating to claim construction of the Reset Patent. The District Court's decisions rejected assertions that the Reset Patent claims are invalid for indefiniteness; and affirmed Vicor's interpretation of several terms used in the Reset Patent claims. However, the District Court adopted interpretations of certain terms of the Reset Patent claims that are contrary to Vicor's position. On May 24, 2004, the United States Court of Appeals for the Federal Circuit affirmed the decisions issued in January 2003 by the District Court. Vicor believes that the District Court's decisions, and the affirmation of these decisions by the Federal Circuit, strengthens its position regarding validity of the patent, but reduces the cumulative amount of infringing power supplies and the corresponding amount of potential damages. The Federal Circuit has referred the proceedings back to the District Court for trials on validity of the Reset Patent and infringement and damages by Lucent, Tyco and Artesyn.

In the second quarter of 2005, the Company entered into a settlement agreement with Lambda Americas, Inc., successor to Lambda Electronics, Inc., under which the Company received a payment of \$2,500,000, net of a \$250,000 contingency fee paid by the Company to its litigation counsel, in full settlement of the Company's Reset Patent claims against Lambda and which settled the lawsuit that the Company had filed against Lambda in June 2001. The District Court has not yet set dates for the remaining trials. There can be no assurance that Vicor and VLT will ultimately prevail with respect to any of these claims or, if they prevail, as to the amount of damages that would be awarded.

In May 2004, Ericsson Wireless Communications, Inc. v. Vicor Corporation was filed in Superior Court of the State of California, County of San Diego. The plaintiff has brought an action against the Company claiming unspecified damages for failure of out-of warranty products previously purchased by it from the Company. In November 2004, Ericsson filed a First Amended Complaint adding claims against Exar Corporation, a former vendor of the Company. The Company filed cross-claims against Exar, and third-party claims against Rohm Device USA, LLC and Rohm Co., Ltd., the original manufacturer(s) of the component which Exar sold to the Company. The Company has denied the claims made against it and intends to vigorously defend the claims made against it.

On March 4, 2005, Exar filed a declaratory judgment action against Vicor in the Superior Court of the State of California, County of Santa Clara, in which Exar seeks a declaration by the Court that Exar is not obligated to reimburse or indemnify Vicor for any claims brought against Vicor for alleged damages incurred as a result of the use of Exar components in Vicor products. The Company has brought cross-claims against Exar, and third-party claims against Rohm Device USA, LLC and Rohm Co., Ltd., for declaratory judgment. The Company intends to vigorously assert its cross-claims against Exar.

On August 18, 2005, the Company filed an action in The Superior Court of the Commonwealth of Massachusetts, County of Essex ("the Court") against Concurrent Computer Corporation ("Concurrent") in response to a demand made by Concurrent in connection with breach of contract and breach of product

VICOR CORPORATION

Notes to Condensed Consolidated Financial Statements (Continued)

March 31, 2006

(Unaudited)

8. Legal Proceedings (Continued)

warranty claims against the Company. On September 22, 2005, Concurrent filed a Demand For Arbitration with The American Arbitration Association. Concurrent is seeking \$1,500,000 in replacement costs, plus incidental, consequential and any other damages to be determined. On March 8, 2006 the Court allowed Concurrent's motion to compel arbitration. The Company has denied the claims made against it and intends to vigorously defend the claims made against it.

In addition, the Company is involved in certain other litigation and claims incidental to the conduct of its business. While the outcome of lawsuits and claims against the Company cannot be predicted with certainty, management does not expect any current litigation or claims to have a material adverse impact on the Company's financial position or results of operations.

9. Impact of Recently Issued Accounting Standards

In November 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 151, "Inventory Costs, an amendment of Accounting Research Bulletin (ARB) No. 43, Chapter 4" ("FAS 151"). FAS 151 amends the guidance in ARB No 43, Chapter 4, "Inventory Pricing" to clarify that abnormal amounts of idle facility expense, freight, handling costs, and wasted material (spoilage) should be recognized as current-period charges. In addition, FAS 151 requires that allocation of fixed production overhead to the costs of conversion be based on the normal capacity of the production facilities. The provisions of FAS 151 are effective for inventory costs incurred starting January 1, 2006. The adoption of FAS 151 did not have a significant impact on the Company's financial position or results of operations.

In May 2005, the FASB issued Statement of Financial Accounting Standards No. 154, "Accounting Changes and Error Corrections" ("FAS 154"). This statement establishes new standards on accounting for changes in accounting principles. Pursuant to FAS 154, all such changes must be accounted for by retrospective application to the financial statements of prior periods unless it is impracticable to do so. FAS 154 replaces APB Opinion No. 20 and SFAS No. 3, though it carries forward the guidance in those pronouncements with respect to accounting for changes in estimates, changes in the reporting entity and the correction of errors. The provisions of FAS 154 are effective for accounting changes and corrections of errors incurred starting January 1, 2006. The adoption of FAS 154 did not have a significant impact on the Company's financial position or results of operations.

10. Dividend

On February 4, 2006, the Company's Board of Directors approved a cash dividend of \$.12 per share of the Company's stock. The total dividend of approximately \$5,030,000 was paid on March 20, 2006 to shareholders of record at the close of business on February 28, 2006.

VICOR CORPORATION

Notes to Condensed Consolidated Financial Statements (Continued) March 31, 2006 (Unaudited)

10. Dividend (Continued)

Dividends are declared at the discretion of the Company's Board of Directors and depend on actual cash from operations, the Company's financial condition and capital requirements and any other factors the Company's Board of Directors may consider relevant. The Board of Directors anticipates reviewing its dividend policy on a semi-annual basis.

VICOR CORPORATION

Management's Discussion and Analysis of Financial Condition and Results of Operations March 31, 2006

Item 2 – Management's Discussion and Analysis of Financial Condition and Results of Operations

Except for historical information contained herein, some matters discussed in this report constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The words "believes," "expects," "anticipates," "intend," "estimate," "plans," "assumes," "may," "will," "would," "should," "continue," "prospective," "project," and other similar expressions identify forward-looking statements. These statements are based upon the Company's current expectations and estimates as to the prospective events and circumstances which may or may not be within the Company's control and as to which there can be no assurance. Actual results could differ materially from those projected in the forward-looking statements as a result of various factors, including our ability to develop and market new products and technologies cost effectively, to leverage design wins into increased product sales, to decrease manufacturing costs, to enter into licensing agreements that amplify the market opportunity and accelerate market penetration, to realize significant royalties under license agreements, to achieve a sustainable increased bookings rate over a longer period, to hire key personnel and build our business units, and to successfully leverage the V • I Chips in standard products to promote market acceptance of Factorized Power, factors impacting the Company's various end markets, including Consumer Electronics, Communications, Information Technology and Automotive, as well as those factors described in the risk factors set forth in this report and in the Company's Annual Report on Form 10-K for the year ended December 31, 2005. Reference is made in particular to the discussions set forth below in this report under "Management's Discussion and Analysis of Financial Condition and Results of Operations," and set forth in the Annual Report on Form 10-K under Part I, Item 1 "Business — Second-Generation Products," "—Competition," "—Patents," and "—Licensing," under Part I, Item 1A "—Risk Factors," under Part I, Item 3 - "Legal Proceedings," and under Part II, Item 7 — "Management's Discussion and Analysis of Financial Condition and Results of Operations." The risk factors contained in the Annual Report on Form 10-K may not be exhaustive. Therefore, the information contained in that Form 10-K should be read together with other reports and documents that the Company files with the Securities and Exchange Commission from time to time, including Forms 10-Q, 8-K and 10-K, which may supplement, modify, supersede or update those risk factors. The Company does not undertake any obligation to update any forward-looking statements as a result of future events or developments.

Critical Accounting Policies and Estimates

Please refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2005 for a complete summary of the critical accounting policies and estimates.

VICOR CORPORATION

Management's Discussion and Analysis of Financial Condition and Results of Operations March 31, 2006 (Continued)

Results of Operations

Three months ended March 31, 2006 compared to three months ended March 31, 2005

Net revenues for the first quarter of 2006 were \$47,872,000, an increase of \$4,692,000, or 10.9%, as compared to \$43,180,000 for the same period a year ago, and an increase of 3.4% on a sequential basis from the fourth quarter of 2005. The increase in net revenues from the prior year resulted from an increase in shipments of standard and custom products. Orders during the quarter increased by 27.4% compared with the fourth quarter of 2005. The book-to-bill ratio for the first quarter of 2006 was 1.17:1 as compared to 1.09:1 for the first quarter of 2005 and 0.95:1 in the fourth quarter of 2005. The Company believes that, subject to continuing demand and productivity improvements, revenue growth and incremental quarterly expansion in margins should enable substantial profits in 2006.

Gross margin for the first quarter of 2006 increased \$4,057,000, or 23.8%, to \$21,102,000 from \$17,045,000 for the first quarter of 2005, and increased to 44.1% from 39.5% as a percentage of net revenues. The primary components of the increase in gross margin dollars and percentage were due to the increase in net revenues and an increase in manufacturing efficiencies resulting in lower average unit costs.

Selling, general and administrative expenses were \$10,914,000 for the period, an increase of \$810,000, or 8.0%, from the same period in 2005. As a percentage of net revenues, selling, general and administrative expenses decreased to 22.8% from 23.4%. The principal components of the \$810,000 increase were \$295,000, or 6.6%, of increased compensation expense primarily due to annual compensation adjustments in May 2005, \$199,000, or 62.3%, in increased legal fees due to the litigation with Ericsson Wireless Communications, Inc. (see Part II – Item 1 – Legal Proceedings), \$189,000, or 21.4%, in increased commissions due to the increase in net revenues and \$176,000, or 25.1%, of increased costs associated with the Vicor Integration Architects ("VIAs"). The increase in compensation expense also includes \$86,000 of non-cash stock-based compensation recorded under newly adopted Statement of Financial Accounting Standards No. 123 (revised 2004), "Share-Based Payment" (FAS 123R). See Note 2 to the condensed consolidated financial statements for further discussion.

Research and development expenses increased \$446,000, or 6.3%, to \$7,542,000, and decreased as a percentage of net revenues to 15.8% from 16.4%. The principal components of the \$446,000 increase were \$591,000, or 13.6%, in increased compensation expense primarily due to annual compensation adjustments in May 2005 and \$69,000, or 20.1%, of increased costs associated with the VIAs. The principal component partially offsetting the above increases were \$256,000, or 26.1%, in decreased project material costs due to the stabilization of development efforts associated with the Company's new Factorized Power Architecture ("FPA") products. The increase in compensation expense also includes \$62,000 of non-cash stock-based compensation recorded under FAS 123(R). The Company has a long-term commitment to investing in new product design and development in order to maintain and improve its competitive position.

VICOR CORPORATION

Management's Discussion and Analysis of Financial Condition and Results of Operations March 31, 2006 (Continued)

The major changes in the components of the other income (expense), net were as follows (in thousands):

	2006	2005	Increase (decrease)
Interest income	\$ 1,141	\$ 635	\$ 506
Foreign currency gains (losses)	54	(180)	234
Minority interest in net income of subsidiaries	(153)	(90)	(63)
Other	18	129	(111)
	\$ 1,060	\$ 494	\$ 566

The increase in interest income is due to higher interest rates and higher average balances on the Company's cash equivalents and short-term investments. The increase in foreign currency gains is due to the favorable exchange rates in 2006 as compared to 2005.

Income before income taxes was \$3,706,000 for the first quarter of 2006 compared to \$339,000 for the same period in 2005.

In the first quarter of 2006, the tax provision is based on an estimated effective tax rate for 2006, which includes federal, state and foreign income taxes on the Company's projected annual pretax income, estimated federal and state income taxes for certain minority-owned subsidiaries that are not part of the Company's consolidated income tax returns, offset by the expected utilization of remaining net operating loss carryforwards and certain tax credit carryforwards. In 2005, the tax provision included estimated income taxes for federal and state taxes for certain minority-owned subsidiaries that are not part of the Company's consolidated income tax returns, for the Federal alternative minimum tax and for estimated income taxes due in various state and international taxing jurisdictions.

Basic and diluted income per share was \$0.07 for the first quarter of 2006 compared to \$0.00 for the first quarter of 2005.

Liquidity and Capital Resources

At March 31, 2006 the Company had \$25,830,000 in cash and cash equivalents. The ratio of current assets to current liabilities was 7.9:1 at March 31, 2006 compared to 7.6:1 at December 31, 2005. Working capital increased \$4,649,000, from \$150,385,000 at December 31, 2005 to \$155,034,000 at March 31, 2006. The primary factors affecting the working capital increase were increases in short-term investments of \$7,794,000, accounts receivable of \$2,981,000 and inventory of \$1,489,000. These increases were partially offset by a decrease in cash and cash equivalents of \$8,194,000. The primary sources of cash for the three months ended March 31, 2006 were \$2,474,000 in net proceeds from the issuance of Common Stock upon the exercise of stock

VICOR CORPORATION

Management's Discussion and Analysis of Financial Condition and Results of Operations March 31, 2006 (Continued)

options and \$2,434,000 from operating activities. The primary uses of cash for the three months ended March 31, 2006 were for the payment of a Common Stock dividend of \$5,030,000, \$4,449,000 of net purchases of short-term investments, the acquisition of treasury stock for \$1,998,000 and the acquisition of equipment of approximately \$1,555,000.

In November 2000, the Board of Directors of the Company authorized the repurchase of up to \$30,000,000 of the Company's Common Stock (the "November 2000 Plan"). The November 2000 Plan authorizes the Company to make such repurchases from time to time in the open market or through privately negotiated transactions. The timing and amounts of stock repurchases are at the discretion of management based on its view of economic and financial market conditions. The Company spent approximately \$1,998,000 for the repurchase of 119,500 shares of Common Stock during the three months ended March 31, 2006. As of March 31, 2006, the Company had approximately \$17,378,000 remaining under the plan.

On February 4, 2006, the Company's Board of Directors approved a cash dividend of \$.12 per share of the Company's stock. The total dividend of approximately \$5,030,000 was paid on March 20, 2006 to shareholders of record at the close of business on February 28, 2006. The Board of Directors anticipates reviewing its dividend policy on a semi-annual basis.

The Company's primary liquidity needs are for making continuing investments in manufacturing equipment, particularly equipment for the Company's new FPA products. The Company believes that cash generated from operations and the total of its cash and cash equivalents, together with other sources of liquidity, will be sufficient to fund planned operations and capital equipment purchases for the foreseeable future. At March 31, 2006, the Company had approximately \$998,000 of capital expenditure commitments, principally for manufacturing equipment.

The Company does not consider the impact of inflation and changing prices on its business activities or fluctuations in the exchange rates for foreign currency transactions to have been significant during the last three fiscal years.

Item 3 – Quantitative and Qualitative Disclosures About Market Risk

The Company is exposed to a variety of market risks, including changes in interest rates affecting the return on its cash and cash equivalents, short-term and long-term investments and fluctuations in foreign currency exchange rates.

As the Company's cash and cash equivalents consist principally of money market securities, which are short-term in nature, the Company's exposure to market risk on interest rate fluctuations for these investments is not significant. The Company's short-term and long-term investments consist mainly of corporate debt securities. These debt securities are all highly rated investments, in which a significant portion have interest rates reset at auction at regular intervals. As a result, the Company believes there is minimal market risk to these investments.

FORM 10-Q PART I ITEMS 3 — 4 PAGE 20

VICOR CORPORATION

March 31, 2006

The Company's exposure to market risk for fluctuations in foreign currency exchange rates relates primarily to the operations of Vicor Japan Company, Ltd. ("VJCL") and changes in the dollar/yen exchange rate. In addition, the functional currency of the Company's subsidiaries in Europe and Hong Kong is the U.S. Dollar. Therefore, the Company believes that market risk is mitigated since these operations are not materially exposed to foreign exchange fluctuations.

Item 4 – Controls and Procedures

(a) Disclosure controls and procedures.

As required by Rule 13a-15 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the Company's management conducted an evaluation with the participation of the Company's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), regarding the effectiveness of the Company's disclosure controls and procedures, as of the end of the last fiscal quarter. In designing and evaluating the Company's disclosure controls and procedures, the Company and its management recognize that any controls and procedures, no matter how well designed and operated, can provide only a reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating and implementing possible controls and procedures. Based upon that evaluation, the CEO and CFO concluded that they believe the Company's disclosure controls and procedures are reasonably effective to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. We intend to continue to review and document our disclosure controls and procedures, including our internal controls and procedures for financial reporting, and we may from time to time make changes to the disclosure controls and procedures to enhance their effectiveness and to ensure that our systems evolve with our business.

The Company's management, including the CEO and CFO, does not expect that our disclosure controls or our internal control over financial reporting will prevent or detect all error and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

(b) Changes in internal control over financial reporting.

There were no changes in the Company's internal control over financial reporting identified in connection with the Company's evaluation of internal control over financial reporting that occurred during the Company's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

CERTIFICATIONS

I, Patrizio Vinciarelli, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of Vicor Corporation;
- 2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
